

Advanced CSS Selectors

Tahiana Weiss

CONTEXT

This lesson was built with focus on Interaction.

Both remote and face-to-face classes can benefit from engaging the student and pulling instead of pushing content.

EVIDENCE

The initial quiz can assess the level of the students, helping the teacher to:

- choose how to approach it.
- choose what type of examples to use.
- know the degree of attention they have to pay to details.

SUCCESS MEASUREMENTS

The students will be completing an exercise in CodePen, to be corrected by the teacher.

The exercise can be done in pairs, to stimulate collaboration.

WHAT HAVE THEY LEARNT?

- familiarize themselves with the selector concept.
- identify a selector in a code.
- use specific selectors to achieve the needed result.

Engaging material – videos, quizzes

Exercises – CodePen

Collaboration – Slack and pairwork.
